

One region, one firm.

Studio Legale Sutti is pleased to announce the opening of its office in Zagreb, Croatia, the first office directly operated by an international firm in the country, and to welcome into its ranks its new Croatian partners and associates.

This step also marks the completion of SLS's expansion into South-Eastern Europe, which within a five-year period has led to the establishment of the single largest practice in the Balkans in terms of territorial coverage, human resources and turnover.

Such expansion demonstrates how a fifty-year Italian success story can be extended into neighbouring countries, resulting in a broadening of the services offered and further increasing our especial vocation of dealing with multi-jurisdictional matters in a flexible and aggressive way, and of overcoming cultural, legal and linguistic barriers.

If more than one-third of our aggregated business is generated nowadays by inward instructions, mostly originating from our clients' domestic counsel and corporate legal departments, there must be a reason...

STUDIO LEGALE
SUTTI
